ABOUT

Natalya does not claim that she knows everything, but she always reaches for the stars for her clients. Over the years of practice in business law, yoga and meditation, she realized that all those could perfectly compliment and facilitate each other. In fact, business does much better and serves much longer when done in a balanced manner with a clear mind.

What People Say:

- Vitaly Kuchinskiy Subsurface Manager at Marathon Oil Corporation. “Natalia helped me with a couple of real estate projects in Ukraine. She is a knowledgeable and sensitive adviser, who keeps your best interests as a priority. Natalia was prompt in delivering the work product and diligent in supervising to see the project done. I highly recommend her as a business adviser for clients who need step-by-step assistance to get the project done.”
- Illya Muchnyk, Legal Director, Finance, Projects and Restructuring at DLA Piper. I worked with Natalia in DLA Piper where she advised on real estate transactions as well as on couple of other deals. She proved to be reliable and trustworthy lawyer always giving practical advice. I can recommend her as a trusted legal and business advisor.
- Daniel Bilak, Chairman, UkraineInvest; Chief Adviser on Investments to the Prime Minister of Ukraine. I have had the pleasure of supervising the work of Natalia Meyer for two years while she was an associate lawyer in the Kyiv Office of CMS Cameron McKenna LLP. Natalia is personable, intelligent, articulate, highly motivated and responsible. She inherently understands the tasks to be performed and inspires trust and confidence in her abilities. She is meticulous and timely in the execution of her duties, and works well on her own as well as in a team setting. Natalia remains calm under pressure, organises her own work and the work of others in a professional manner, and displays an authority and competence in difficult situations, which others around her find reassuring. She leads by example through her hard work and diligence, and treats her co-workers and others courteously and with respect. I have no hesitation in recommending Natalia Meyer for a professional position. She would be an asset to any organization.
- Yevheniy Deyneko. Managing Partner/Founder at EVERLEGAL / M&A and Energy lawyer admitted in Ukraine and New York State. I worked with Natalia on a couple of M&A projects where she was involved as a real estate associate. She proved to be very diligent, reliable and attentive to detail as well as demonstrated very good analytical skills. I believe Natalia is a very good lawyer who strives to excellence and is able to meet high demands.
- Steve Wherry. Vice President & General Manager, KAR FZE BAS, Ltd. I worked with Natalia while she was with Shevchenko, Didkovskiy and Partners. At this time she was a first year junior associate out of law school. She was a member of the legal team representing Marathon Oil as we established a Ukrainian LLC and addressed all other facets of establishing a new business as a foreign investor. While she did not yet have a breadth of legal experience, I was struck by her unbridled enthusiasm and commitment for her work. The partner she worked under had high expectations and Natalia worked very well under pressure. She was responsible primarily for researching various real estate and energy issues and supporting the drafting of various commercial real estate agreements. Her determination and diligence was evident then and continues as she made the decision to uproot, move to the US, complete a LLM and establish herself in the legal community. Natalia possesses the qualifications and demonstrated competencies to become a competent and dedicated member of the most reputable legal teams.

Advised the following clients:

- Geric Construction group, a Canadian real estate development company on international expansion of local business.
